DETAILED ACTION

Election/Restrictions

1. This application is in condition for allowance except for the presence of claims directed to Groups II and III non-elected without traverse. Accordingly, claims 16-21, 23-26, 28, and 39-43 have been cancelled.

Drawings

2. The drawings were received on February 17, 2009. These drawings are accepted.

Allowable Subject Matter

3. Claims 1-3, 7, 9-12, 15, 29-34, and 38 as presented in the amendment filed February 17, 2009 are allowed over the prior art of record.

4. The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose either singly or in combination the claimed device for controlled release of molecules comprising a device body having at least one reservoir, said reservoir having a barrier impermeable to the molecules formed thereon; at least one acoustic transducer for converting an acoustic signal into an electrical signal; and an acoustic switch coupled between the transducer and an energy storage device wherein the acoustic switch is configured to receive an acoustic signal from a source and actuate an electrical circuit

from passive mode into active mode, leading to barrier permeabilization and release of molecules from the reservoir.

5. The closest prior art of record is Santini Jr. et al (USPN 5,797,898) in view of Sleva et al (USPN 5,488,954) in further view of Pfeiffer (USPN 3,536,836), however these references, singly or in combination, do not disclose the device as claimed or described above.

6. Regarding independent claims 1, 29, and 38, the prior art of record fails to teach among all the limitations or render obvious the limitation of an acoustic switch placed between an acoustic transducer and an energy source which, after receiving an acoustic signal, can actuate an electric circuit from passive mode into active mode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
